LANGUAGES

80% English   80% Polish   80% Japanese

ACHIEVEMENTS

Successfully implemented a complex interface for journal entries, resulting in a 30% reduction in processing time.

PROFESSIONAL SUMMARY

Innovative Oracle Application Developer with over 7 years of extensive experience in designing, customizing, and implementing Oracle Applications, including Accounts Payable, Accounts Receivable, and General Ledger modules. Proven ability to enhance system functionality through effective coding and integration. Looking to leverage my technical expertise to drive impactful solutions and optimize business processes.

WORK EXPERIENCE

Senior Oracle Application Developer
📅 Apr / 2020-Ongoing
Maple Leaf Consulting
📍 Toronto, ON

1. Developed and maintained various inbound and outbound interfaces, ensuring seamless data flow between Oracle Applications and external systems.
2. Created efficient data load processes using PL/SQL and SQLLoader, optimizing file handling through Unix scripts.
3. Maintained comprehensive technical and functional documentation to support ongoing project needs.
4. Acted as a key liaison with external vendors, including Oracle Managed Cloud Services, to enhance service delivery.
5. Ensured compliance with all corporate policies and procedures while driving continuous improvement initiatives.
6. Provided technical guidance and support in the design and documentation of complex application functionalities.
7. Collaborated with cross-functional teams to enhance user experience and application performance.

Oracle Application Developer
📅 Apr / 2018-Apr / 2020
Silver Lake Enterprises
📍 Seattle, WA

1. Engaged in comprehensive requirement gathering and business analysis for R12 implementation across AP, AR, and GL modules.
2. Developed robust validation procedures and error-handling mechanisms to align with complex design specifications.
3. Designed and implemented various XML Publisher reports, including 'Customer Statement of Account' and 'AR Invoice Report', enhancing data visibility.
4. Led the project for Core Banking Solutions interface, improving integration with Oracle Applications.
5. Created automated processes for importing journal entries into the General Ledger, streamlining financial operations.
6. Developed interface programs to facilitate data imports into Oracle Applications, ensuring data integrity.

EDUCATION

Bachelor of Science in Computer Science
📅 Apr / 2016-Apr / 2018
State University
📍 Seattle, WA

Focused on software development, database management, and systems analysis.
