Objective

Oracle Database Developer with experience of over 8 years in Oracle SQL, PL/SQL covering versions 8i through 11g. Involved in all phases of Software Development Life Cycle from analysis, design, development, testing, implementation, and maintenance with timely delivery against aggressive deadlines. Extensive experience in writing PL/SQL Packages, Stored Procedures, Functions, Triggers using Oracle latest features.

Skills

PL/SQL, SQL, ETL, Data Modeling, Java, Python, Reporting.

Work Experience

Oracle Database Developer

National Grid - July 2013 - 2020

- Designed and created entity-relationship diagrams (ERD) for Oracle-based applications and interfaces.
- Wrote complex SQL queries using sub-queries, analytical functions, and inline views Used Bulk Binding for better performance and easy retrieval of data by reducing context switching between SQL and PL/SQL engines.
- Handled different types of predefined and user-defined exceptions.
- Created PL/SQL packages for reconciliation report generation.
- Designed, developed, and maintained oracle database schemas, tables, standard views, materialized views, synonyms, unique indexes, non-unique indexes, constraints, triggers, sequences, implicit cursors, explicit cursors, cursor for loops, reference cursors, and other database objects.
- Managed the packaging and release of applications across environments.
- Deployed database objects (procedures, triggers, tables) to production.

Oracle Database Developer

Delta Corporation - 2010 - 2013

- National Grid is a Global Electricity and Gas company based in the UK and North-east US.
- Owns and operates regulated Electricity and Gas networks in the UK and US.
- Serves 19 million customers in the UK.
- National Grid IS vision is to enable business value by delivering innovative solutions and cost-effective services with transparency, flexibility, scalability, and agility.
- Currently supports customer systems for Utility Clients.
- Modified existing software to correct errors, upgrade interfaces, and improve performance.
- Resolution of incidents raised by clients.
