PROFESSIONAL SUMMARY

Accomplished Packaging Technician with 10 years of experience in optimizing packaging processes and ensuring compliance with industry standards. Expertise in operating advanced packaging machinery and implementing quality assurance protocols. Proven track record in enhancing production efficiency and reducing costs while maintaining the highest quality standards. Ready to leverage my extensive skills to contribute to innovative packaging solutions.

WORK EXPERIENCE

Packaging Technician Lead Jan / 2018-Ongoing
Seaside Innovations Santa Monica, CA

- Supported R&D teams in developing innovative packaging formats for wet wipes.
- Executed lean and Six Sigma methodologies to enhance process efficiency and reduce costs.
- Optimized process performance utilizing Operational Excellence tools and techniques.
- Collaborated with Operations Management to set objectives for yield improvement and cost reduction.
- Designed and executed empirical Design of Experiments (DOE) for process validation.
- Conducted packaging stability and compatibility testing to assess product shelf life and quality.
- Analyzed data and developed specifications to enhance product quality.

Packaging Technician Jan / 2015-Jan / 2018
Silver Lake Enterprises Seattle, WA

- Contributed to a packaging project that saved the company 15-17 million dollars annually.
- Troubleshoot production equipment for the manufacturing and testing of sample cans.
- Utilized precision measuring tools, including calipers and plug gauges.
- Performed vacuum chamber altitude testing to ensure packaging integrity.
- Conducted water vacuum tank tests for leak detection in packaging.

EDUCATION

Bachelor of Science in Packaging Engineering Jan / 2012 Jan / 2015
Michigan State University Phoenix, AZ

Focused on packaging design, materials science, and production processes.
