## ACHIEVEMENTS

- Streamlined the onboarding process by developing automated workflows, reducing processing time by 25%.
- Increased system efficiency by implementing a new Employee Expense Program, leading to a 15% reduction in processing errors.

## PROFESSIONAL SUMMARY

Proficient PeopleSoft Developer Assistant with 5 years of experience in enhancing and supporting PeopleSoft applications. Skilled in PeopleTools and PeopleCode, I excel in system integration and user support, ensuring optimal performance and functionality. I am passionate about utilizing my technical skills to contribute to innovative solutions and drive project success.

## WORK EXPERIENCE

Peoplesoft Developer Assistant  
Blue Sky Innovations  
Mar / 2022-Ongoing  
Chicago, IL

- Reviewed and validated developer designs, creating detailed test scripts for quality assurance.
- Delivered end-user training and support on the Skills and Competencies module, securing management approval through effective demonstrations.
- Provided ongoing support for HR, Payroll, Benefits, Accounts Payable, and other system modules.
- Designed and executed an Employee Expense Program to streamline expense reporting into Payroll.
- Authored functional and technical specifications, along with comprehensive test plans for new implementations.
- Transitioned to direct deposit for all expense checks, eliminating manual paper checks.
- Developed customized PeopleCode for a Pay Adjustment process, enhancing payroll accuracy.

Peoplesoft Developer  
Summit Peak Industries  
Mar / 2020-Mar / 2022  
Denver, CO

- Resolved eProfile data integrity issues and modified eBenefits pages per client specifications, ensuring compliance.
- Developed an outbound interface for third-party vendors, enhancing data sharing capabilities.
- Supported onboarding workflow enhancements through bolt-on system development.
- Maintained and improved production batch processing jobs for ADP Payroll interfaces.
- Conducted impact analysis for data archiving initiatives, improving data management practices.
- Customized Data Archival App Engine to optimize performance and storage.
