PROFESSIONAL SUMMARY

Performance Analyst with 5 years of experience in performance testing and data analysis. Skilled in utilizing tools such as LoadRunner, Dynatrace, and Splunk to identify performance bottlenecks and enhance system efficiency. Proven ability to create detailed performance test plans, execute tests, and deliver actionable insights to stakeholders for continuous improvement.

WORK EXPERIENCE

Performance Analyst

📅 Feb / 2021-Ongoing

Blue Sky Innovations

📍 Chicago, IL

1. Executed performance testing on various modules within KP organization, identifying key performance metrics.
2. Designed and configured LoadRunner scenarios for web protocols, ensuring accurate performance assessments.
3. Developed and maintained projects using HP Performance Center, enhancing testing efficiency.
4. Created comprehensive performance test plans and managed scheduling, ensuring alignment with performance requirements.
5. Conducted load testing using complex scenarios, assessing system resilience and scalability.
6. Utilized BSM and Foglight for data capture and analysis, pinpointing performance bottlenecks.
7. Provided actionable feedback to development teams to address performance issues and enhance application efficiency.

Sr. Performance Test Engineer/Test Lead

📅 Feb / 2020-Feb / 2021

Lakeside Apparel Co

📍 Chicago, IL

1. Served as a performance test engineer for multiple applications within Verizon, focusing on performance optimization.
2. Mentored team members on performance testing tools and methodologies, enhancing team capabilities.
3. Evaluated functional performance testing tools, contributing to selection and implementation processes.
4. Identified performance issues and provided recommendations for improvement to development teams.
5. Executed load testing with LoadRunner scripts, assessing system performance under simulated user conditions.
6. Analyzed system bottlenecks using performance monitors and profilers, improving resource utilization.

EDUCATION

Bachelor of Science in Computer Science

📅 Feb / 2019 - Feb / 2020

University of Technology

📍 Santa Monica, CA

Focused on software engineering principles, data structures, and performance optimization techniques.

ACHIEVEMENTS

🌟 Reduced application response time by 30% through targeted performance optimization.

🌟 Developed and implemented a comprehensive performance testing strategy, improving test coverage by 40%.
