## LANGUAGES

English

Italian

Japanese

## ACHIEVEMENTS

★ Successfully completed over 50 complex piping installations, enhancing system efficiency by 30%.

★ Reduced project completion times by 15% through improved workflow and team coordination.

## PROFESSIONAL SUMMARY

Experienced Pipefitter Fabrication Specialist with 7 years in the installation, maintenance, and repair of piping systems. Demonstrated proficiency in blueprint interpretation and advanced welding techniques, ensuring compliance with safety regulations. A collaborative team player dedicated to enhancing operational efficiency and delivering high-quality results on complex projects.

## WORK EXPERIENCE

### Pipefitter Fabrication Specialist

📅 Apr / 2020-Ongoing

Seaside Innovations

📍 Santa Monica, CA

1. Assembled, fabricated, maintained, and repaired piping systems for water, steam, and chemical transport, ensuring optimal functionality.
2. Coordinated with project managers to assess project requirements and allocate resources effectively.
3. Executed precision welding techniques to enhance the durability and integrity of piping systems.
4. Conducted regular inspections and maintenance checks to ensure compliance with safety standards.
5. Collaborated with team members to streamline installation processes, reducing downtime.
6. Utilized advanced tools and equipment for cutting, threading, and bending pipes to specifications.
7. Maintained accurate documentation of installations and repairs, contributing to project transparency.

### Pipefitter/Maintenance

📅 Apr / 2018-Apr / 2020

Lakeside Apparel Co

📍 Chicago, IL

1. Selected appropriate pipe sizes and materials based on detailed job specifications to ensure project success.
2. Inspected work sites to identify potential obstacles and planned installation sequences accordingly.
3. Cut and prepared piping using various tools, including pipe cutters and cutting torches, ensuring precision.
4. Threaded and bent pipes using machines and hand tools, adhering to industry standards.
5. Installed pipe hangers and brackets securely to support piping systems effectively.
6. Worked closely with other trades to coordinate installations and resolve any issues promptly.

## EDUCATION

### Associate of Applied Science in Piping Technology

📅 Apr / 2016 - Apr / 2018

Technical College of the Midwest

📍 Chicago, IL

Focused on the principles of piping systems, fabrication techniques, and industry safety standards.
