PROFESSIONAL SUMMARY

Accomplished Pipeline Foreman with over 7 years of extensive experience in managing pipeline construction and maintenance projects. Proven expertise in leading diverse teams, enforcing safety compliance, and driving operational efficiency. Passionate about delivering exceptional results and fostering a culture of safety and collaboration. Ready to apply my skills for impactful project execution.

WORK EXPERIENCE

Pipeline Foreman  Mar / 2021-Ongoing  Denver, CO
WidgetWorks Inc.

1. Conducted comprehensive job hazard analyses and facilitated daily and weekly toolbox talks to enhance safety awareness.
2. Supervised daily operations, ensuring compliance with specifications and proactive monitoring of site safety conditions.
3. Managed pipeline installation and valve settings from initiation to completion, ensuring quality standards.
4. Reported daily employee hours and project progress, maintaining budgetary constraints.
5. Collaborated with contractors to ensure timely project completion and adherence to specifications.
6. Oversaw three pipeline crews, optimizing resource allocation for diverse pipeline projects.
7. Maintained accurate records of timesheets and construction materials for project accountability.

Pipeline Foreman  Mar / 2018-Mar / 2021  Portland, OR
Crescent Moon Design

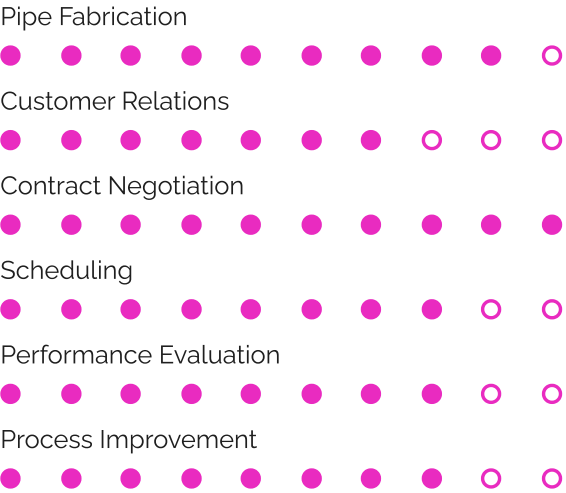

1. Executed line digs, locating and potholing pipelines to ensure accurate installations.
2. Oversaw new builds and maintenance operations on rights-of-way (ROW), ensuring compliance with regulations.
3. Coordinated pipeline crew schedules for project efficiency and timely completion.
4. Demonstrated exceptional equipment operation skills as a Swab Rig operator.
5. Facilitated onsite safety meetings, ensuring adherence to safety protocols during daily operations.
6. Managed procurement of materials, including pipes and gravel, ensuring timely availability for projects.

EDUCATION

Associate of Applied Science in Pipeline Technology  Mar / 2015 - Mar / 2018  Phoenix, AZ
Midwestern Technical College

Focused on pipeline construction and maintenance techniques, including safety protocols and environmental regulations.
