Plastic Extrusion Operator

support@qwikresume.com (123) 456 7899 Los Angeles www.qwikresume.com

## PROFESSIONAL SUMMARY

With over 7 years of experience as a Plastic Extrusion Operator, I excel in optimizing production processes and ensuring quality control. My expertise in machine setup, operation, and maintenance drives efficiency while adhering to safety standards. I am dedicated to producing high-quality plastic components that meet stringent customer specifications and contribute to overall production goals.

## WORK EXPERIENCE

Plastic Extrusion Operator Mar / 2021-Ongoing  
Pineapple Enterprises Santa Monica, CA

- 1. Operated and optimized multiple plastic profile extrusion lines to meet production targets.
- 2. Set up dies, heating elements, and conveyor systems for efficient operation.
- 3. Monitored and adjusted machine settings to ensure product quality and consistency.
- 4. Utilized precision measuring tools to verify dimensions and specifications.
- 5. Scheduled and executed extrusion runs in alignment with customer requirements.
- 6. Conducted routine cleaning and maintenance of work areas and machinery.
- 7. Performed quality inspections on finished products, identifying and rectifying defects.

Plastic Extrusion Operator Mar / 2018-Mar / 2021  
Crescent Moon Design Portland, OR

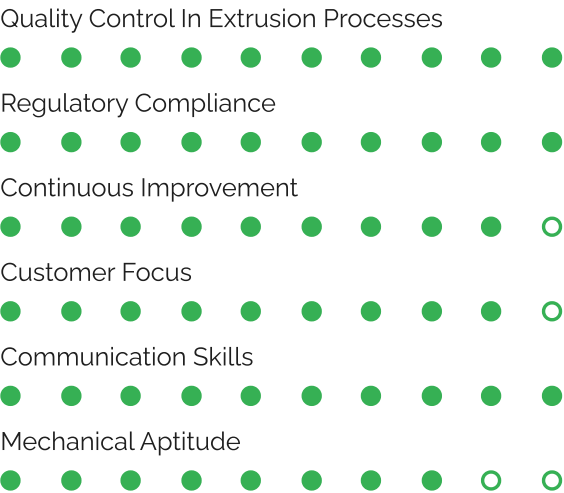

- 1. Measured and verified dimensions of extruded components to ensure compliance with specifications.
- 2. Set up and operated computer-controlled extrusion machinery for various projects.
- 3. Maintained accurate records of production metrics and quality checks.
- 4. Led efforts in troubleshooting and resolving equipment malfunctions.
- 5. Configured and adjusted machinery for different plastic profiles, including weather stripping.
- 6. Ensured adherence to safety protocols during all operational processes.

## EDUCATION

Associate of Applied Science in Plastics Technology Mar / 2015 - Mar / 2018  
Community College of Philadelphia Santa Monica, CA

Focused on the principles of plastic processing and extrusion techniques.

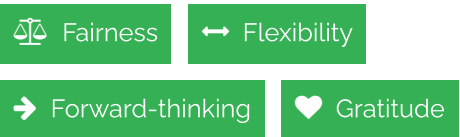

## SKILLS

## INTERESTS

- Gaming
- Fashion
- Film
- Technology

## STRENGTHS

## LANGUAGES

## ACHIEVEMENTS

- Reduced production downtime by 20% through proactive equipment maintenance.
- Improved product quality, achieving a 98% pass rate on final inspections.
- Implemented process adjustments that increased extrusion efficiency by 15%.
