## WORK EXPERIENCE

### Lead Plumber

ABC Corporation - April 2015 - Present

- Maintain or repair plumbing by replacing defective washers, replacing or mending broken pipes, or opening clogged drains.
- Direct helpers engaged in pipe cutting, preassembly, or installation of plumbing systems or components.
- Assemble pipe sections, tubing, or fittings, using couplings, clamps, screws, bolts, cement, plastic solvent, caulking, or soldering, brazing, or welding equipment.
- Very skilled in copper soldering, PVC, black steel, even had experience in old lead installation.
- Responsibilities Assist in the assembly, installation, and repair of plumbing, water flow, and drainage systems.
- Fill pipes or plumbing fixtures with water or air and observe pressure gauges to detect and locate leaks.
- Consistently assumed additional responsibilities and worked extended hours to meet project deadlines.

### Plumbing Leadman

ABC Corporation - February 2013 - April 2015

- Perform rough-ins, repair and replace fixtures and water heaters, and locate and repair, or remove leaking or broken pipes.
- Assembling pipe sections, tubing, and fittings, using screws, bolts, solder, plastic solvent, and caulking.
- Determine required materials and equipment and sequence of pipe installations.
- There was a small amount of plumbing work to be done on this job and its completion was the initial reason I was hired on.
- Unfortunately upon completion of this job my services were no longer required and I was forced to continue my job search once again.
- Performed the installation of commercial plumbing and heating systems primarily in school renovations throughout the area.
- Reading and knowledge of blueprint specifications to determine the layout of new plumbing such as as-cast iron, copper, gas pipe fixtures and valves to set finish plumber.
