ACHIEVEMENTS

★ Led a cross-functional team to integrate a new cloud-based SaaS solution, enhancing user access and security protocols.

★ Developed a comprehensive training program for junior engineers, improving team competency and project delivery times.

PROFESSIONAL SUMMARY

Seasoned Principal Software Engineer with a decade of experience leading teams to design and deploy high-impact software solutions. Expert in optimizing performance and ensuring seamless user experiences, I excel in fostering collaboration across technical groups. My commitment to innovation drives the successful delivery of scalable and efficient systems that meet evolving business needs.

WORK EXPERIENCE

Principal Software Engineer - Team Lead
Maple Leaf Consulting

📅 Feb / 2019-Ongoing
📍 Toronto, ON

1. Engineered a robust system recovery feature, safeguarding market communication and saving over $5 million in initial deployment.
2. Achieved a 100% reliability rate in customer transactions through enhanced system integrity.
3. Streamlined order processing, reducing time by 50% and doubling broker efficiency.
4. Collaborated with Risk Management to enhance software modules, achieving 99% accuracy in account balances.
5. Created a real-time risk management tool, empowering managers with precise stock and account monitoring.
6. Automated stock loan table monitoring, providing timely updates for inventory management.
7. Developed alternate routing and destination software, enabling customizable order routing options.

Principal Software Engineer
Cactus Creek Solutions

📅 Feb / 2015-Feb / 2019
📍 Phoenix, AZ

1. Gathered requirements and developed innovative software solutions that align with business objectives.
2. Mentored and supervised junior engineers, fostering a culture of quality and best practices.
3. Collaborated with post-sales support teams to swiftly identify and resolve user issues.
4. Designed a cloud-based SaaS solution, enhancing secure access and privilege management.
5. Architected and developed modules for integrating automated password management in Azure environments.
6. Employed Agile methodologies to manage projects, ensuring timely delivery and stakeholder satisfaction.

EDUCATION

Master of Science in Computer Science
Stanford University

📅 Feb / 2012-Feb / 2015
📍 Denver, CO

Focused on software engineering principles and advanced programming techniques.
