PROFESSIONAL SUMMARY

Results-focused Process Technician with 2 years of experience in manufacturing settings, specializing in equipment operation and process optimization. Proven ability to enhance production quality while adhering to safety and compliance standards. Eager to apply hands-on expertise in troubleshooting and continuous improvement to drive operational success and support team objectives.

WORK EXPERIENCE

Process Technician  Apr / 2024–Ongoing
Quantum Solutions LLC  Phoenix, AZ

1. Set up, operated, and maintained multiple extrusion machines to ensure optimal performance.
2. Monitored production processes and adjusted parameters for temperature and speed to enhance product quality.
3. Documented and analyzed production data to identify and resolve issues causing downtime.
4. Collaborated with engineering teams to implement process improvements and troubleshoot equipment malfunctions.
5. Prepared and mixed raw materials according to specifications, ensuring accurate measurements.
6. Trained team members on operational best practices and safety protocols.
7. Identified and implemented cost-saving measures in production processes.

Process Technician  Apr / 2023–Apr / 2024
Lakeside Apparel Co  Chicago, IL

1. Managed candy slurry production, lifting materials and ensuring proper ingredient ratios.
2. Conducted hourly quality checks and sampling to maintain product standards.
3. Executed cleaning and sanitization of kitchen equipment between product changes.
4. Ensured compliance with OSHA and 5S regulations to maintain a safe work environment.
5. Tracked inventory of ingredients used during production runs to optimize resource management.
6. Assisted in training new hires on production processes and safety measures.

EDUCATION

Associate of Applied Science in Manufacturing Technology  Apr / 2022 – Apr / 2023
Tech Community College  Chicago, IL

Focused on manufacturing processes, quality control, and safety standards.
