Alabama.

### Objective

Product Quality Manager with demonstrated success in regulatory affairs, data mining, project management, manufacturing, and developing/leading high functioning teams in the extensively regulated biotechnology/pharmaceutical industry. In pursuit of challenging opportunities to apply experience, leadership skills, and dedication to the success of a progressive biotechnology/pharmaceutical, medical device, or alternative energy company.

### Skills

Facility Auditor, Product Manager, Quality Assurance.

### Work Experience

#### Product Quality Manager

**ABC Corporation** - March 2015 - 2021

- Planned and facilitated Post Award conferences for new contracts.
- Coordinated and maintained working relationships with engineers, scientists, technical personnel, procurement specialists, and contractor representatives to ensure technical requirements are being implemented.
- Reviewed engineering change proposals and give approval or disapproval.
- Visited multiple contractor locations to gain a greater understanding of every component of the end item.
- Lead, planned, participated, and prepared reports for ISO 9000 Quality Management System Audits at both contractor and supplier locations.
- Conducted internal audits within my organization.
- Conducted Physical Configuration Audits at contractor locations.

#### Product Quality Manager

**Delta Corporation** - 2012 - 2015

- Utilized extensive knowledge of the Quality Assurance (QA) principles, concepts, and methodology to ensure quality was incorporated in the production and development of Military mortar ammunition for the warfighter.
- Planned and facilitated Post Award conferences for new contracts.
- Coordinated and maintained working relationships with engineers, scientists, technical personnel, procurement specialists, and contractor representatives to ensure technical requirements were being implemented.
- Reviewed engineering change proposals and gave approval or disapproval.
- Visited multiple contractor locations to gain a greater understanding of every component of the end item.
- Led, planned, participated, and prepared reports for ISO 9000 Quality Management System Audits at both contractor and supplier locations.
- Conducted internal audits within my organization.
