

# ROBERT SMITH

## Lead Programmer

[info@qwikresume.com](mailto:info@qwikresume.com) | [LinkedIn Profile](#) | [Qwikresume.com](#)

Adaptable Data Analyst skilled in recording, interpreting and analyzing data in a fast-paced environment. Experienced in preparing detailed documents and reports while managing complex internal and external data analysis responsibilities.

## EXPERIENCE

### Lead Programmer

#### ABC Corporation - JUNE 2000 - JULY 2011

- Performed systems analysis and programming tasks to maintain and control the use of computer systems software as a systems programmer.
- Wrote, updated, and maintained computer programs or software packages to handle specific jobs such as tracking inventory, storing or retrieving data, or controlling other equipment.
- Wrote or contributed to instructions or manuals to guide end users.
- Corrected errors by making appropriate changes and rechecking the program to ensure that the desired results are produced.
- Conducted trial runs of programs and software applications to be sure they will produce the desired information and that the instructions are correct.
- Performed or direct revision, repair, or expansion of existing programs to increase operating efficiency or adapt to new requirements.
- Supported weekly payroll runs to ensure no errors occur.

### Programmer

#### ABC Corporation - 1995 - 2000

- Technologies C, C++, MatLab, Unix Shell Script, Solaris Description
- Pattern Recognition consists of three main tasks Classification, Clustering and Feature analysis.
- Classification involves assigning a class label to a given pattern.
- Clustering finds homogenous subgroups in data while the goal of feature analysis is to find useful feature for a given task.
- The success of a classifier or clustering algorithms depends on the features used.
- An approach was proposed to design classifiers using Neural Networks and Fuzzy Logic for multi-class problem.
- On-line feature selection schemes were used to select features and learning of the system (say a classifier) resulting more accurate system for a given problem
- Responsibilities Developer - involved in System study, Development, Unit testing and Program review at various stages.
- DECLARATION I hereby declare that the above particulars are true to

the best of my knowledge and belief.

## EDUCATION

- 

## SKILLS

Team Player, Problem Solver, Effective Communicator, Analytical, Organized, Innovative, Self-Motivated, Detailed Oriented.
