PROFESSIONAL SUMMARY

Dynamic Public Health Nurse with a decade of experience in delivering comprehensive healthcare services to diverse populations. Proven expertise in maternal and child health, immunization programs, and community health education. Committed to fostering patient engagement and promoting health equity through evidence-based practices.

WORK EXPERIENCE

Public Health Nurse Jan / 2019–Ongoing
Seaside Innovations 📍 Santa Monica, CA

1. Deliver family planning and STD services, interviewing patients to gather medical histories and collecting objective medical information.
2. Provide perinatal high-risk management services for maternity and infant patients, performing comprehensive assessments.
3. Administer adult and pediatric immunizations, ensuring compliance with health regulations.
4. Conduct well-child health examinations and developmental screenings, compiling accurate medical histories.
5. Manage tuberculosis cases, providing directly observed therapy and necessary follow-up.
6. Offer WIC services, delivering nutrition education and general health recommendations.
7. Execute various clinical services, including follow-up testing and newborn screenings as required.

Public Health Nurse Jan / 2015–Jan / 2019
Lakeside Apparel Co 📍 Chicago, IL

1. Served as Lead Coordinator and Clinic Nurse, providing home visitation services to high-risk children and pregnant women.
2. Collaborated with various state and local health programs to ensure comprehensive care delivery.
3. Administered pre-employment screenings, vaccinations, and TB testing for social service clients.
4. Led Flu clinics and provided services in STD clinics, enhancing community health outreach.
5. Worked closely with physicians to coordinate patient care and medication administration.

EDUCATION

Bachelor of Science in Nursing Jan / 2012–Jan / 2015
University of California 📍 Santa Monica, CA

Comprehensive nursing program emphasizing public health and community care.

SKILLS

Aseptic Technique and Infection Control	Surgical Assistance and Patient Care	Postpartum and Neonatal Care	Patient assessment
