EMMA JOHNSON

Qa Test Lead

✉ support@qwikresume.com 📞 (123) 456 7899 📍 Los Angeles 🌐 www.qwikresume.com

PROFESSIONAL SUMMARY

Seasoned QA Test Lead with 10 years of extensive expertise in software quality assurance and testing. Proven ability to spearhead QA initiatives, design robust testing strategies, and ensure high-quality deliverables across diverse applications. Skilled in leading teams, optimizing testing processes, and collaborating effectively with cross-functional stakeholders to enhance product quality and user satisfaction.

WORK EXPERIENCE

Qa Test Lead
Seaside Innovations

📅 Apr / 2019-Ongoing
📌 Santa Monica, CA

1. Developed and executed comprehensive Test Plans and Strategies, ensuring alignment with project requirements and quality standards.
2. Led efforts in prioritizing and scheduling test activities, resulting in timely project deliverables and improved team efficiency.
3. Facilitated requirements gathering sessions with stakeholders to define functional and non-functional requirements accurately.
4. Created and reviewed detailed Test Cases and Test Data based on Requirement Specifications, enhancing testing coverage.
5. Conducted Functional and GUI testing, ensuring thorough validation of individual modules before release.
6. Managed defect tracking and reporting using Clear Quest, maintaining clear communication with clients regarding project status.
7. Oversaw quality documentation processes, ensuring compliance with industry standards and project requirements.

QA Test Lead
Lakeside Apparel Co

📅 Apr / 2015-Apr / 2019
📌 Chicago, IL

1. Acted as the QA Test Lead within an Agile team for key development projects, ensuring adherence to quality standards.
2. Managed a five-member offshore QA team, driving test scenario development and automation script implementation using UFT.
3. Designed, executed, and maintained automated test scripts, analyzing results and addressing failures to ensure software quality.
4. Represented the QA team in Agile meetings, collaborating closely with stakeholders to communicate testing progress and challenges.
5. Identified and managed risks associated with testing, ensuring proactive mitigation strategies were in place.
6. Conducted knowledge-sharing sessions to enhance team capabilities and foster continuous learning.

EDUCATION

Bachelor of Science in Computer Science
University of Technology

📅 Apr / 2012 - Apr / 2015
📌 Portland, OR

Focused on software development and quality assurance principles.
