## Work Experience

### QC Manager

**ABC Corporation** - 2004 - 2005

- Actively recruited by company management to re-engineer for lean manufacturing.
- Inspected existing systems, analyzed and developed new quality and standards employing lean manufacturing principles.
- Designed and deployed new internal processes for the highest levels of efficiency and cost containment.
- Customer Service program expediting order entry and production schedule.
- Authored policies and procedures, job descriptions, and implemented all related training programs.
- Consistently monitored, evaluated and managed all QA functions to ensure compliance.
- Managed and directed all operations for the Shipping/Receiving logistics inventory controls, and management reporting.

### QC Manager

**ABC Corporation** - 2003 - 2004

- Served as QC Manager for this \$18M NAVFAC project at Camp Lemonier, Djibouti, Africa.
- For this design-build project, I was responsible for organizing and managing a multi-national work force, development of work plans and procedures and standards.
- Quality control activities included submittal of daily production and quality control reports to monitor progress against project schedules and cost, plan and coordinate on-site QC meetings, QC training, mock-ups, and other QC related activities.
- Additionally managed coordinated the three phases of control and documentation, supervised subcontractor Quality Control Inspectors, coordinated inspection activities with and subcontractors, client, Title II inspectors, and third-party inspectors to.
- Schedule and validation of design.
- Work activities included erection of pre-engineered buildings and a satellite fire station.
- Included new 2743m x 45m runway, 2 exit taxiways, and 3 interconnecting aprons, I coordinated all subcontractors, monitored work progress, and oversaw the projects quality control and safety issues as needed.
