

ROBERT SMITH

Certified Quality Technician

info@qwikresume.com | [LinkedIn Profile](#) | [Qwikresume.com](#)

Certified Quality Technician with over ten years of experience, diverse technical background, and an excellent theoretical understanding. Recognized as a versatile, adaptable and persistent problem solver. Highly creative, inventive and resourceful with attention to detail. To find a position that will let me use my skills and experience in Quality to create/maintain a stable and positive work environment, and improve on its company's credibility and level of quality.

EXPERIENCE

Certified Quality Technician

ABC Corporation - JANUARY 2016 - PRESENT

- Created a comprehensive report cataloging finished goods dimensions and weights based on daily inspections, and compared to their listed specs, which was able to show trends and discrepancies.
- Performed daily inspections on manufactured goods, as well as in-process audits.
- Maintained manufacturing and receiving calendar to have a weekly view of my upcoming work and plan accordingly, always inspecting imported goods the day they arrive.
- Lead multiple massive rework projects for production and shipping departments, working with, and managing, anywhere between five and twenty workers.
- Maintained monthly vendor scorecards for over ten different vendors, grading them based on the quality of goods, communication, and shipping records, which allows management to evaluate the quality of business with each individually.
- Worked from blueprints, interpreted engineering requirements, and Configuration verifications.
- Inspected parts and ensured acceptable appearance, function, tolerances, dimensions and specifications.

Senior Quality Technician

ABC Corporation - MARCH 2007 - FEBRUARY 2015

- Obtained samples of ingredients/product at regular intervals. Evaluated the samples weight, color, bake, etc.
- Performed microbiological tests. Routinely made recommendations for processing.
- Originated and maintained accurate records. Checked Metal Detectors.
- Performed mathematical calculations on weight and logs information of proper paperwork.
- Maintained flour-tailing reports. Trained new Lab Technicians as necessary.

- Practiced and complied with all company policies and procedures including safety and work rules, etc.
- This is Dummy Description data, Replace with job description relevant to your current role.
