

ROBERT SMITH

Registered Dental Hygienist I

info@qwikresume.com | <https://Qwikresume.com>

Using my personality and professionalism to make my patients comfortable and happy and to practice Dental Hygiene as part of a professional dental team where I can best serve my patient's oral health needs and add value to a dental team.

OCTOBER 2013 - DECEMBER 2014

REGISTERED DENTAL HYGIENIST I - ABC CORPORATION

- Perform routine prophylaxis to patients of all ages, take digital and analog radiographs.
- Assess periodontal health and give dental hygiene diagnosis to each patient to help patient to achieve optimum oral care.
- Perform non-surgical periodontal surgery and full mouth debridements prior to scaling and root planing when necessary.
- Educate each patient and give knowledge to not only benefit their oral health but also their overall health.
- Experience with the use of intra-oral camera, oraquix, Patterson eagle soft equipment, and applying fluoride treatments.
- assist doctor in preparation of treatment and recommendation of recall interval plans for each patient.
- write digital notes for each patient along with scheduling patient for future appointments.

JULY 2013 - SEPTEMBER 2013

REGISTERED DENTAL HYGIENIST - ABC CORPORATION

- Perform routine prophylaxis to patients of all ages, take and process radiographs.
- Educate each patient on oral hygiene instruction and demonstrate and recommend products and techniques for each patient to their specific abilities.
- Assess each patients periodontal health status and educate patient on any further treatment they may need.
- Responsible for sharpening own instruments and sterilizing all my equipment.
- Experience with arestin, intra oral camera, diagnosing, and used hand written chart for tracking services completed for each patient.
- This job gave me a definite boost of time efficiency when seeing patients every 40 to 50 minutes.
- Gained experience in multiple areas and gave me an insight as to what it was like working in a small office.
