

Objective

Looking for a position in the medical field, where can use science degree, 0-1 years related work experience required. Basic familiarity with computers. Ability to navigate at a basic level within web-based applications.

Skills

Python, Java, Programming, CAD, Web Application, Matlab, Git.

Work Experience

Research Student I

ABC Corporation - January 2011 – May 2012

- Monitored and observed experiments, recording production and test data for evaluation by research personnel.
- Cleaned, maintained and prepared supplies and work areas.
- Conducted, and assisted in conducting, research, including the collection of information and samples, such as blood, water, soil, plants and animals.
- Conducted standardized biological, microbiological and biochemical tests and laboratory analyses to evaluate the quantity and quality of physical and chemical substances in food and other products.
- Analyzed experimental data and interpreted results to write reports and summaries of findings.
- Isolated, identified and prepared specimens for examination.
- Used computers, computer-interfaced equipment, robotics and high-technology industrial applications to perform work duties.

Research Student

Delta Corporation - 2007 – 2011

- Conducted a pilot research study looking into the role of race, indoor pets, and selected genetic markers in asthma prevalence among children in .
- The research identified both cases and controls through Cook Childrens Hospital in Fort Worth.
- Used data collection techniques such as questionnaires to assess the childs health status, demographics, health behaviors and other risk factors in .
- Responsible for statistical analysis of the study, determining the relationship between race, ownership of indoor pets and certain genetic markers .
- Created a report titled, Investigation of the Reactivity of New Drugs to Treat Giardia using Cyclic Voltammetry.
- Colombo, Sri Lanka Conducted extraction studies and monograph preparation of some of the medicinal plants in Sri Lanka.
- This is Dummy Description data, Replace with job description relevant to your current role.

Education

Bachelors of Science in Biology/Prehealth - (Alabama State University - Montgomery, AL)
