

# EVELYN WHITE

Rf Technician

## PROFESSIONAL SUMMARY

With a decade of specialized experience as an RF Technician, I excel in the design, installation, and troubleshooting of advanced RF systems. My expertise in utilizing cutting-edge testing equipment ensures optimal system performance and reliability. I am dedicated to driving innovation and efficiency while maintaining compliance with industry standards and fostering collaborative team environments.

## WORK EXPERIENCE

**Rf Technician** 📅 Apr / 2018-Ongoing  
**Blue Sky Innovations** 📍 Chicago, IL

1. Conducted comprehensive testing and troubleshooting of RF systems to ensure optimal performance and reliability.
2. Designed and redesigned printed circuit boards to enhance system capabilities and meet production demands.
3. Document all maintenance activities and system modifications accurately.
4. Assist in the development of RF test plans and procedures.
5. Developed automated testing equipment, streamlining production processes and improving output.
6. Demonstrated product performance to FAA and international clients, ensuring compliance and satisfaction.
7. Supported technical production requirements for new nav-aid products, including factory acceptance testing.

**RF Technician** 📅 Apr / 2015-Apr / 2018  
**Cactus Creek Solutions** 📍 Phoenix, AZ

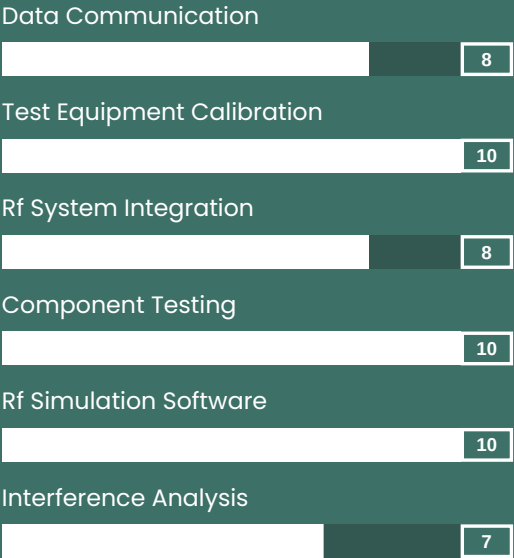

1. Provided technical support for the installation and maintenance of RF systems, ensuring optimal functionality.
2. Monitored and controlled systems to ensure reliability and compliance with industry standards.
3. Operated and maintained RF microwave equipment, performing regular inspections and troubleshooting.
4. Executed scheduled maintenance tasks, minimizing equipment downtime and maximizing efficiency.
5. Identified and documented equipment issues, maintaining accurate logs and inventory.
6. Collaborated with cross-functional teams to support new equipment installations and upgrades.

## EDUCATION

**Associate of Applied Science in Electronics** 📅 Apr / 2012-Apr / 2015  
**Tech Institute of Technology** 📍 Seattle, WA  
Focused on RF technologies, circuit design, and testing methodologies.
