

# Robert Smith

## Lead Rig Hand

### PERSONAL STATEMENT

Skilled worker with experience in various drilling applications. Safety-conscious and detail-oriented. A team player opened to learning new methods.

### WORK EXPERIENCE

#### **Lead Rig Hand**

**ABC Corporation - April 2009 - August 2009**

##### *Responsibilities:*

- Attended monthly safety meetings to ensure the machine operation safety.
- Employed a wide variety of hand and power tools including hoists, drills, precision measuring instruments and electronic testing devices.
- Followed company procedures to maintain a work environment in a neat and orderly condition.
- Inspected machine parts for conformance to product specifications.
- Prepared and administered preventative maintenance work orders. Handwritten JSAs for each job task for each position.
- Operated a wide variety of equipment including power saws, sanders, grinders, forklift, and basic hand tools.
- Learn the importance of asking questions, and working as a team.

#### **Rig Hand**

**ABC Corporation - 2004 - 2009**

##### *Responsibilities:*

- Responsible for solids control.
- The main focus of my job was to dry and remove the cuttings from the well.
- Was also responsible for the maintenance of the yard and loading of trucks entering and leaving the location.
- Also facilitated the other rig hands in the performance of their jobs.
- There is not a lot that changes on a rig.
- Every well drilled is basically the same and it turns out to be a rather thankless job.
- Skills Used Other than being a pretty good loader operator, most of the work is manual labor and plain old brute force getting it done..

### Education

GED - (Bakersfield College - Bakersfield, CA)
