ACHIEVEMENTS

★ Successfully led rigging operations for projects exceeding 100 tons, ensuring zero incidents.

★ Achieved a 20% increase in operational efficiency through improved rigging techniques and training.

PROFESSIONAL SUMMARY

With 5 years of dedicated rigging experience, I specialize in executing safe lifting operations and ensuring compliance with safety protocols. Skilled in rigging equipment selection and team collaboration, I focus on enhancing operational efficiency. I am ready to leverage my expertise in a challenging environment that prioritizes safety and excellence.

WORK EXPERIENCE

Asst. Rigger

📅 Jan / 2021-Ongoing

Blue Sky Innovations

📍 Chicago, IL

1. Responsible for rigging heavy loads, utilizing clear hand signals for crane operators.
2. Executed the positioning of heavy loads with precision using various rigging techniques.
3. Adhered to standard operating procedures for safety awareness and hazard identification.
4. Reviewed project scopes to understand and execute hands-on rigging tasks effectively.
5. Pulled ball or mandrel through ducts to ensure clear passages for cables.
6. Regularly communicated project status with supervisors to align on daily operations.
7. Trained in Maximos, SIPPs, and Hot Work protocols to enhance safety and efficiency.

Rigger

📅 Jan / 2020-Jan / 2021

Crescent Moon Design

📍 Portland, OR

1. Assembled wire rope and chain slings to meet project specifications.
2. Tested rigging assemblies to ensure compliance with OSHA standards.
3. Participated actively in workplace safety initiatives, fostering a culture of safety.
4. Achieved a record of zero injuries while maintaining a TWIC card and HES/HAZCOM certifications.
5. Utilized overhead cranes and forklifts daily for efficient material handling.

EDUCATION

Associate in Applied Science in Rigging Technology

📅 Jan / 2019 Jan / 2020

Technical College of America

📍 Denver, CO

Focused on the principles of rigging, safety protocols, and equipment handling.
