Client Relationship Management

Technical Writing Skills

Data Analysis Skills

Network Security Principles

### INTERESTS

📖 Birdwatching 🏠 Traveling

📅 Sports Coaching 🏆 Knitting

### STRENGTHS

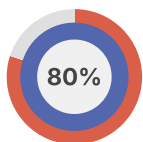

🔧 Pragmatism

🍃 Sensitivity

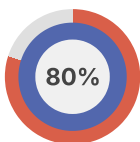

❤️ Sincerity

⚓ Stability

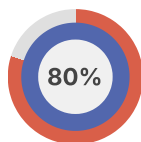

### LANGUAGES

English

Russian

Dutch

### ACHIEVEMENTS

- ★ Successfully led the installation of \$25M satellite systems, enhancing operational capabilities.
- ★ Reduced system downtime by 30% through effective preventive maintenance strategies.

### PROFESSIONAL SUMMARY

With 7 years of specialized experience in satellite communications, I excel in the installation, maintenance, and troubleshooting of advanced satellite systems. My technical expertise enables me to optimize network performance and implement effective solutions, ensuring reliable communication. I am committed to driving innovation and operational efficiency in high-demand environments.

### WORK EXPERIENCE

#### Senior Satellite Communications Technician

📅 Apr / 2021-Ongoing

Pineapple Enterprises

📍 Santa Monica, CA

- Completed Army 31S Satellite Communications Systems Operator-Maintainer course with excellence.
- Provided foundational training in satellite electronic principles to new technicians.
- Introduced advanced satellite communication concepts, enhancing operational knowledge.
- Operated and maintained strategic satellite communications earth terminal equipment, ensuring optimal functionality.
- Utilized Test Measurement and Diagnostic Equipment (TMDE) for rigorous preventive maintenance checks.
- Configured and repaired tactical satellite communications terminals, maintaining mission readiness.
- Deployed globally, supporting various branches of the military and government agencies with reliable satellite communications.

#### Satellite Communications Technician

📅 Apr / 2018-Apr / 2021

Silver Lake Enterprises

📍 Seattle, WA

- Managed maintenance and operations for satellite network ground equipment, ensuring high availability.
- Supervised \$29M worth of satellite communications terminals, providing real-time missile warning capabilities.
- Processed classified information, maintaining stringent security protocols.
- Led teams in the technical repair of high-voltage equipment, ensuring service continuity for end-users.
- Trained new personnel in satellite communication protocols and troubleshooting procedures.
- Oversaw installation and maintenance of satellite systems during deployment in Afghanistan, enhancing communication capabilities.

### EDUCATION

#### Bachelor of Science in Electronics Engineering

📅 Apr / 2015 - Apr / 2018

Georgia Institute of Technology

📍 Santa Monica, CA

Focused on telecommunications and satellite communications technology.
