

Senior .Net Developer

 www.qwikresume.com

Accomplished Senior .Net Developer with 7 years of extensive experience in the complete software development life cycle (SDLC). Proficient in crafting robust applications using .NET technologies, including ASP.NET, C#, and ADO.NET. Demonstrated ability to enhance application performance and user experience while collaborating effectively within diverse teams. Committed to continuous learning and integrating new technologies.

Senior .Net Developer

WidgetWorks Inc.

May / 2021-Ongoing

📌 Denver, CO

1. Engineered complex business logic through the design and implementation of abstract classes and interfaces using C#.
2. Created intuitive user interfaces utilizing Silverlight XAML and C# to enhance user engagement.
3. Developed reusable UI components with Kendo UI, streamlining the development process across multiple projects.
4. Implemented custom modules in AngularJS to extend core functionalities, improving application flexibility.
5. Utilized advanced Silverlight controls for data presentation, optimizing user interactions with sorting and paging.
6. Collaborated on responsive web design initiatives using Bootstrap, ensuring compatibility across devices.
7. Employed JavaScript for client-side validation and event handling, enhancing user experience.

Senior .Net Developer

Summit Peak Industries

May / 2018-May / 2021

📌 Denver, CO

1. Designed and integrated web services, enhancing application scalability and performance.
2. Conducted comprehensive risk assessments to identify vulnerabilities and implement security measures.
3. Developed user authentication modules, improving security protocols for sensitive data.
4. Analyzed complex problems and provided effective solutions, contributing to project success.
5. Mentored junior developers, fostering skill development and knowledge sharing within the team.
6. Maintained up-to-date knowledge of industry trends and best practices to drive innovation.

Bachelor of Science in Computer Science

University of Technology

May / 2015-May / 2018

📌 Chicago, IL

Focused on software development methodologies and computer programming.

Restful Apis

Ling

MVC

Entity Framework

- 🚩 Spearheaded the migration of legacy systems to ASP.NET Core, improving application performance by 30%.

- Developed a modular web application that reduced development time by 25% through reusable components.

- 🔥 Implemented automated testing frameworks that increased code coverage to 85%, enhancing software reliability.
