SUMMARY

Operating and maintaining workboats, including electrofishing boats, drift boards, and lading craft style boards up to 26 ft in length, and also Working effectively in a multi-cultural environment as a team member in a pleasant and efficient manner.

SKILLS

Managing Skills, Leadership.

WORK EXPERIENCE

Senior Biologist

ABC Corporation - May 2008 – August 2010

- Maria prepared a Biological Assessment for effects of the development project on nesting bald eagles for U.S.
- Responsible for preparing the biological resources section of the projects Environmental Assessment.
- Conducted a baseline ecological study conduct in the Buffalo Pasture for the purpose of compiling an inventory of the wetlands, flora, and fauna currently present.
- Studied conducted during Phase I include vegetation and soils sampling and mapping, diurnal and nocturnal avian use surveys, investigation of federal and state listed wildlife and wildlife habitat, general wildlife observations.
- Adopted as standard organization practice.
- Supported environmental permit application preparation.
- Contributed as an active and positive member of AECOM's large natural resources practice in the SF Bay.

Senior Biologist

Delta Corporation - 2007 – 2008

- Conducted monthly internal audits to ensure laboratories complied with organizational policies; compiled and submitted reports of audit findings .
- Womens Health Research Institute Drug Discovery/Nuclear Receptors Department Responsible for setting up in vitro assays and managing a group .
- Implemented many molecular biology assays/methods to study the molecular signaling of the estrogen receptor.
- Led a two-person lab charged with testing all potential plant products for AP (Adventitious Presence) and was instrumental in providing information .
- Converted routine tests from a manual, gel-based format to automated, fluorescent dye technology which improved efficiency by over 40% while .

- recipient of a prestigious award given to one laboratory each year for consistently producing quality results instrumental to bringing products to .
- Tannourji conducted a burrowing owl habitat assessment and prepared a mitigation plan for the proposed project in addition to completing the CEQA .
