👤 PROFESSIONAL SUMMARY

Versatile Senior Database Administrator with a decade of experience in designing, optimizing, and securing complex database systems. Expert in leveraging advanced SQL Server techniques and high-availability solutions to boost performance and reliability. Passionate about driving innovation through collaboration and ensuring data integrity across all platforms.

🖥 WORK EXPERIENCE

Senior Database Administrator
📅 Feb / 2018-Ongoing

Maple Leaf Consulting
📍 Toronto, ON

1. Utilized performance monitoring tools to ensure optimal database operations and troubleshoot issues proactively.
2. Established high availability and disaster recovery plans, significantly improving data resilience.
3. Designed and implemented SQL Server replication strategies, enhancing data distribution across multiple sites.
4. Developed ETL processes for data integration, improving data accessibility for stakeholders.
5. Created detailed reporting solutions using SQL Server SSRS, streamlining operational reporting.
6. Conducted performance tuning and optimization of SQL queries, resulting in improved application performance.
7. Collaborated with cross-functional teams to define and implement data governance policies.

Senior Database Administrator
📅 Feb / 2015-Feb / 2018

**Silver Lake Enterprises**
📍 Seattle, WA

1. Provided expert remote support for global clients managing extensive database environments.
2. Conducted in-depth troubleshooting to resolve critical system issues promptly.
3. Applied software patches and upgrades to ensure system security and functionality.
4. Developed custom monitoring scripts to enhance system oversight and early problem detection.
5. Supported Exadata configurations, including RAC, ASM, and Data Guard functionalities.

🎓 EDUCATION

Master of Science in Computer Science
📅 Feb / 2012 - Feb / 2015

University of California
📍 Chicago, IL

Focused on database systems and data management technologies.
