👤 PROFESSIONAL SUMMARY

Proficient Senior Network Engineer with a decade of experience in architecting and managing high-performance networks. Specialized in optimizing LAN/WAN infrastructures, enhancing security protocols, and troubleshooting complex issues. Demonstrated success in leading cross-functional teams to deliver innovative, scalable solutions that drive operational excellence and ensure seamless connectivity.

🖥 WORK EXPERIENCE

Senior Network Engineer
Blue Sky Innovations

📅 Feb / 2019-Ongoing
📍 Chicago, IL

1. Leading enterprise network implementation efforts, ensuring alignment with design specifications, timelines, and budget constraints.
2. Strategizing network growth and enhancements, including Wi-Fi, load balancing, and security solutions by optimizing router, switch, and firewall functionality.
3. Conducting capacity planning research to recommend scalable solutions for enterprise networks.
4. Providing support for campus, remote locations, and corporate data centers as required.
5. Developing expertise in network-based tools that enhance operational capabilities.
6. Configuring and managing routers, switches, firewalls, and other telecommunications devices.
7. Utilizing diagnostic tools to isolate and resolve performance issues effectively.

Senior Network Engineer
Lakeside Apparel Co

📅 Feb / 2015-Feb / 2019
📍 Chicago, IL

1. Coordinating planned outages and maintaining clear communication with all stakeholders involved.
2. Performing routine checks and tuning on network equipment for optimal performance.
3. Ensuring network device configurations are securely backed up and conducting regular testing of backup integrity.
4. Maintaining accurate data and records related to network operations.
5. Applying best practices to enhance team processes and improve operational efficiency.
6. Collaborating with customers and service providers to ensure seamless service delivery.

🎓 EDUCATION

Bachelor of Science in Network Engineering
University of Tech

📅 Feb / 2012 - Feb / 2015
📍 Chicago, IL

Focused on network design, security protocols, and system optimization.
