## EXPERIENCE

### Senior Production Supervisor I

#### ABC Corporation - 1999 - 2003

- Managed all shift activities, manufacturing and material management, and office services, with a staff of four direct reports and a production workforce of 100+ union employees.
- Trained five new supervisors.
- Experienced in a wide range of fresh and frozen baked products.
- Planned, organized, and scheduled all manpower and materials usage on a daily basis.
- Monitored labor costs against production standards and executed remedial action as warranted.
- Reduced the standard allowable waste in the pie line from 8% to 5%.
- Recommended and implemented engineering changes to the pie line, streamlining manpower by 25%.

### Senior Production Supervisor

#### Delta Corporation - 1991 - 1992

- Was recruited by Gateway from Lucas - THE best led, most fun and exciting private sector company I worked for.
- Promoted four times in three years.
- Increased productivity by 74% in three months by instituting an automated data base system to track and process all customer returns; and I increased .
- Left to complete US Army career.
- Run the production facility, meet UL and NSF requirements to achieve optimum quality standards in the manufacturing of walk in coolers and freezers .
- Manage labor and inventory levels, update maintenance records, safety training records and coordinate training for the employees.
- Manage personnel issues such as motivation, training and discipline.

## EDUCATION

- Master of Science in Civil Engineering - (Wayne State University - Detroit, MI)
