

JAMES CLARK

Senior Sql Server Developer/Representative

✉ support@qwikresume.com ☎ (123) 456 7899 📍 Los Angeles 🌐 www.qwikresume.com

PROFESSIONAL SUMMARY

Dynamic SQL Server Developer with over 7 years of experience in database design, optimization, and ETL processes. Expertise in transforming complex data sets into actionable insights while ensuring high performance and security. Proven ability to collaborate with cross-functional teams to deliver robust database solutions that align with business objectives.

WORK EXPERIENCE

Senior Sql Server Developer/Representative 📅 Apr / 2020-Ongoing
Quantum Solutions LLC 📍 Phoenix, AZ

1. Conducted data mapping between varied data sources and target models, ensuring data integrity.
2. Engineered solutions for new and renewal loan processes by integrating multiple data sources into SQL Server.
3. Executed data transformations and loaded relevant datasets into a data mart for performance analysis.
4. Collaborated with business analysts to define and refine project requirements effectively.
5. Developed and coded SSIS packages for the Wholesale Credit Data Mart, extracting data from diverse systems including Oracle and Teradata.
6. Established ETL processes for data integration from sources such as Excel and XML into SQL Server.
7. Created complex SSIS packages utilizing tasks and transformations for efficient data processing.

Senior Sql Server Developer 📅 Apr / 2018-Apr / 2020
Lakeside Apparel Co 📍 Chicago, IL

1. Configured SQL Server clustered environments on VMware, ensuring optimal performance and reliability.
2. Developed and deployed SSAS cubes, monitoring both full and incremental data loads for accuracy.
3. Created automated SSIS packages for file transfers using FTP, streamlining data management processes.
4. Configured high availability solutions including Transactional Replication and Log Shipping for critical databases.

EDUCATION

Master of Science in Computer Science 📅 Apr / 2016-Apr / 2018
University of California, Berkeley 📍 Phoenix, AZ

Focused on database systems, data mining, and software engineering.

SKILLS

Reporting Services

Database Administration

Transaction Management

Data Governance

Sql Server Reporting
