ACHIEVEMENTS

- Developed a responsive web application that improved user engagement by 30%.
- Implemented performance optimizations that reduced page load times by 25%.

PROFESSIONAL SUMMARY

Enthusiastic Senior Web UI Developer with 2 years of hands-on experience in creating engaging web applications using AngularJS and Bootstrap. Proficient in delivering responsive designs and ensuring cross-browser compatibility, I excel at enhancing user interfaces with a focus on performance and best practices in web development.

WORK EXPERIENCE

- Senior Web UI Developer May / 2024-Ongoing Chicago, IL
Blue Sky Innovations
- Participated in the full Software Development Life Cycle (SDLC), focusing on requirement analysis, design, and implementation of web applications.
 - Designed and developed responsive web applications using CSS preprocessors and frameworks to enhance user experience.
 - Created scalable enterprise applications utilizing JavaScript, HTML5, CSS3, and AJAX, ensuring high performance and reliability.
 - Developed web pages efficiently with a strong emphasis on cross-browser compatibility using jQuery and Bootstrap.
 - Expert in building Single Page Applications (SPAs) using AngularJS, significantly improving user interaction.
 - Utilized AJAX to enhance interactivity and performance of web applications, streamlining user workflows.
 - Worked collaboratively with UI/UX teams to implement MVC architecture in applications, ensuring seamless integration and functionality.

- Asst.Senior Ui Developer May / 2023-May / 2024 Phoenix, AZ
Cactus Creek Solutions
- SPICE is a web-based platform providing subscribers with timely updates and comprehensive data, enhancing user engagement.
 - Incorporated MVC framework with RESTful web services to elevate S&P index analysis and research.
 - Developed a web page displaying historical data and index compositions, improving data accessibility for users.
 - Engaged in requirement analysis and design phases to ensure technical feasibility and minimal errors during implementation.
 - Designed UI wireframes using AngularJS, jQuery, and Bootstrap to create visually appealing and functional interfaces.
 - Participated in the design of a three-tier architecture, facilitating efficient data communication and integration.

EDUCATION

- Bachelor of Science in Computer Science May / 2022-May / 2023 Seattle, WA
University of Technology
- Focused on software development, web technologies, and UI design principles.
