

# AMELIA MOORE

Set Up Technician

# PROFESSIONAL SUMMARY

Innovative Set Up Technician with 2 years of specialized experience in injection molding and CNC machinery. Proficient in equipment setup, process troubleshooting, and quality control measures to optimize production workflows. Adept at implementing safety protocols and enhancing operational efficiency. Ready to leverage technical expertise to support manufacturing excellence.

#### WORK EXPERIENCE

### Set Up Technician

Apr / 2024-Ongoing

#### Seaside Innovations

- 📮 Santa Monica, CA
- 1. Provided comprehensive setup services for various injection molding machines, ensuring optimal performance and quality.
- 2. Actively monitored production processes to identify and rectify potential issues, minimizing waste and defects.
- 3. Documented setup procedures and maintenance logs in accordance with ISO standards, enhancing compliance and traceability.
- 4. Collaborated with cross-functional teams to ensure alignment on production goals and safety standards.
- 5. Selected to lead training sessions for new technicians on equipment operation and safety practices.
- 6. Utilized troubleshooting skills to resolve machine malfunctions swiftly, maintaining production schedules.
- 7. Maintained a clean and organized workspace to uphold safety and efficiency standards.

#### Set Up Technician

## Apr / 2023-Apr / 2024

#### Summit Peak Industries

- **耳** Denver, CO
- 1. Oversaw operations on various CNC machines, ensuring precise setup and programming for diverse manufacturing tasks.
- 2. Executed machine setups, programming, and troubleshooting, contributing to continuous production flow.
- 3. Provided guidance and training for team members facing operational challenges on their machines.
- 4. Managed job scheduling and task assignments as a night shift Team Leader, optimizing resource allocation.
- 5. Ensured quality control of all TIG welded parts produced in the facility, meeting customer specifications.
- 6. Conducted regular maintenance checks on machinery to prevent breakdowns and enhance longevity.

#### **EDUCATION**

Associate of Applied Science in Manufacturing Technology

Apr / Apr / 2022 2023

Tech Valley Community College

F Santa Monica, CA

Focused on advanced manufacturing processes, including CNC operations and quality control.

# **SKILLS**

Material Handling

Cad Software Proficiency **Networking Skills** System Integration Field Service Experience Logistics Coordination

# **INTERESTS**

#### **STRENGTHS**

## **LANGUAGES**

## **ACHIEVEMENTS**

- Reduced machine downtime by 15% through effective setup procedures.
- Achieved a 20% decrease in production defects by implementing quality control measures.
- Streamlined equipment changeover process, enhancing efficiency by 30%.
