👤 PROFESSIONAL SUMMARY

Accomplished Software Project Manager with 7 years of experience in driving software development projects from ideation to deployment. Skilled in Agile and Scrum methodologies, I ensure project delivery aligns with stakeholder expectations while optimizing team performance. My strategic focus on risk management and process improvement has consistently led to successful project outcomes and enhanced client satisfaction.

🖥 WORK EXPERIENCE

Software Project Manager
Quantum Solutions LLC

📅 Mar / 2020-Ongoing
📍 Phoenix, AZ

1. Oversaw a team of 11 Project Engineers, ensuring effective communication and collaboration.
2. Managed daily project activities, delivering progress reports and resolving customer issues efficiently.
3. Developed comprehensive project plans and secured funding from Program Offices to meet project goals.
4. Delivered critical software programs for US Navy certification, achieving five successful builds on time and within budget.
5. Streamlined delivery processes for US Navy Computer Program Maintenance, enhancing overall efficiency.
6. Acted as the primary customer liaison, addressing issues and ensuring satisfaction with Lockheed programs.
7. Negotiated customer agreements that saved $80K annually by optimizing delivery processes.

Software Project Manager
Summit Peak Industries

📅 Mar / 2018-Mar / 2020
📍 Denver, CO

1. Promoted from Geospatial Software Quality Specialist at RGS, LLC, acquired by Airbus DS, enhancing quality assurance processes.
2. Managed a $200K account, ensuring product compliance with requirements while driving Scrum development momentum.
3. Identified and mitigated risks within project scope, facilitating effective sprint planning and issue resolution.
4. Improved customer satisfaction with a new UI platform for satellite imagery sales, enhancing international market reach.
5. Coordinated schedules and installations for over 50 firmware sets, consistently delivering on time and within budget.
