PROFESSIONAL SUMMARY

Seasoned Software Tester with a decade of expertise in both manual and automated testing, dedicated to enhancing software quality and usability. Adept at formulating strategic test plans, executing precise test cases, and collaborating across teams to identify and resolve defects early. Passionate about driving continuous improvement and delivering reliable software solutions that meet user expectations.

WORK EXPERIENCE

Software Tester

Quantum Solutions LLC

📅 Jan / 2019–Ongoing

📍 Phoenix, AZ

1. Conducted thorough requirement analysis to define operational processes for testing.
2. Collaborated with stakeholders to clarify and document system requirements, ensuring comprehensive test criteria.
3. Evaluated the impact of system modifications on existing functionalities to inform testing strategies.
4. Developed detailed test plans outlining testing strategies, schedules, and metrics for success.
5. Maintain a strong understanding of software development life cycle (SDLC).
6. Implemented test cases in JUnit, ensuring maximum test coverage with tools like Eclemma.
7. Partnered with development teams to streamline test automation processes and enhance code quality.

Software Tester

Summit Peak Industries

📅 Jan / 2015–Jan / 2019

📍 Denver, CO

1. Designed and executed test scripts, documenting results and facilitating resolution of discrepancies.
2. Configured hardware and installed integrated components, ensuring seamless middleware operation.
3. Supported messaging middleware and Common Interface Message Standard (CIMS) for optimal system performance.
4. Managed first-level problem resolution for middleware infrastructure, enhancing system reliability.
5. Oversaw maintenance of queue managers, channels, and web servers to ensure effective data handling.

EDUCATION

Bachelor of Science in Computer Science

University of California

📅 Jan / 2012 – Jan / 2015

📍 Denver, CO

Focused on software development and testing methodologies, gained practical experience in automated testing.
