SKILLS

Agile

Waterfall Methodologies

Unit Testing

Version Control

Continuous Integration

INTERESTS

- 🔧 DIY Projects
- ✂ Crafting
- ⭕ Meditation
- 🏛 History

STRENGTHS

- 🍃 Humility
- 💡 Innovation
- 👁 Insightfulness
- ☑ Integrity

LANGUAGES

English   Russian   Mandarin

ACHIEVEMENTS

- ⭐ Reduced bug backlog by 30% through improved testing protocols.
- ⭐ Developed over 100 test cases for automated testing, enhancing coverage.

PROFESSIONAL SUMMARY

Motivated Jr. SQA Engineer with expertise in developing test cases and executing test plans. Played a key role in a project that improved user satisfaction scores by 15% through rigorous quality assurance practices.

WORK EXPERIENCE

Jr. SQA Engineer   📅 Jun / 2021-Ongoing
Blue Sky Innovations   📍 Chicago, IL

1. Deployed the 1XEVDO commercially.
2. Designed and wrote a detail test plan for Testing 3 different 1XEVDO Product boxes.
3. Wrote test plans based on 3GPP2 standards and functional specifications.
4. Executed performance and sector capacity test cases as part of the product benchmark effort.
5. Managed testing and release schedules by planning test cycles, tracking test results and reporting bugs in the software to the development team.
6. Resolved testing problems by modifying testing methods during tests; conferring with management to revise test objectives and standards.
7. Created test plans for the EMS (Element Management System) which controls/maintains the BTS and BSC of the 1XEVDO network.

SQA Engineer   📅 Jun / 2020-Jun / 2021
Crescent Moon Design   📍 Portland, OR

1. The Symantec RMS Console and Information Server are the foundation of the Control Compliance Suite.
2. The Information Server provides task processing and data storage for all the snap-in modules that are used with the Console.
3. RMS is used to perform various operations such as Querying to targets to gain information about the resource objects in existing infrastructure Symantec BV-Control portfolio of products allow administrators to audit, secure and manage operating systems, directories, applications and databases from a single common console.
4. The software suite also provides in-depth auditing and reporting, as well as closed-loop problem identification and remediation, automating many tasks and allowing administrators to efficiently and securely manage the IT environment.
5. Responsible for functional testing for the product on various windows platforms Windows Server 2000 (SP3/SP4), Windows server 2003 (SP1/SP2), Windows XP (SP1/SP2), Windows 2000 Professional (SP1/SP2), Windows Vista, Windows server 2003 64 bit support.

EDUCATION

Bachelor of Science in Computer Science   📅 Jun / 2019-Jun / 2020
State University   📍 Denver, CO

Focused on software development, testing methodologies, and quality assurance principles.
