PROFESSIONAL SUMMARY

Bringing a decade of expertise as a Stationary Engineer, I specialize in the operation, maintenance, and optimization of complex mechanical systems. My proven ability to enhance energy efficiency and ensure compliance with safety standards positions me as a valuable asset to any facility. Committed to fostering a safe and productive work environment, I aim to drive operational excellence and sustainability.

WORK EXPERIENCE

Stationary Engineer

📅 Feb / 2019-Ongoing

WidgetWorks Inc.

📍 Denver, CO

1. Operated, maintained, and repaired heating, ventilating, refrigeration, and air conditioning systems to ensure optimal performance.
2. Utilized computerized mechanical systems, working from plans and specifications to maintain compliance with safety regulations.
3. Generated reports and maintained preventative maintenance documentation for upper management.
4. Collaborated with contractors and other engineers to install and maintain HVAC systems efficiently.
5. Ensured adherence to county, state, and federal regulations through precise planning and execution.
6. Maintained accurate records and prepared comprehensive reports for work and customer requests.
7. Executed preventative maintenance protocols to guarantee consistent equipment reliability.

Stationary Engineer

📅 Feb / 2015-Feb / 2019

Silver Lake Enterprises

📍 Seattle, WA

1. Managed operation and maintenance of various heating and cooling equipment within a power plant environment.
2. Oversaw equipment such as Steam Boilers, Chillers, and BAS Controls to ensure operational efficiency.
3. Communicated effectively with clients regarding process loads and production schedules to meet demands.
4. Documented critical plant information to aid in billing processes and performance analysis.
5. Implemented a new work order system that improved workflow efficiency.
6. Participated in an energy efficiency team, conducting audits and presenting findings to clients.

EDUCATION

Associate of Applied Science in Mechanical Engineering

📅 Feb / 2012 - Feb / 2015

City College of Technology

📍 Seattle, WA

Focused on HVAC systems and mechanical maintenance principles.
