## PROFESSIONAL SUMMARY

Skilled Steel Fitter with 7 years of experience in assembling and installing structural steel components. Proficient in interpreting blueprints and ensuring precise alignment and fit of steel structures.

## WORK EXPERIENCE

Steel Fitter Jan / 2020-Ongoing  
Quantum Solutions LLC Phoenix, AZ

1. Connected structural components using bolts, adhering to blueprints and supervisor instructions.
2. Positioned steel members accurately for bolting, ensuring structural integrity.
3. Operated cranes to hoist and position steel beams and columns safely.
4. Utilized plumb bobs and laser equipment to verify alignment of steel structures.
5. Executed cutting, bending, and welding of steel using various tools and equipment.
6. Secured steel members in place for permanent fastening through riveting or welding.
7. Adjusted steel components into final positions using hand tools and jacks.

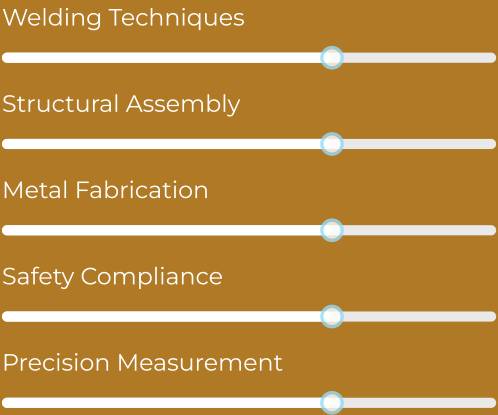

Steel Fitter Jan / 2018-Jan / 2020  
Lakeside Apparel Co Chicago, IL

1. Assembled structural frameworks from materials like I-beams and angle iron, following blueprints.
2. Measured and marked dimensions on materials using squares and chalk lines.
3. Tack-welded components to create jigs for accurate assembly.
4. Filed and ground parts to ensure proper fit during assembly.
5. Heated and bent parts as necessary to meet specifications.
6. Collaborated with engineers to optimize design specifications, enhancing structural integrity.
7. Utilized welding techniques to join steel parts, achieving a 98% pass rate on inspections.

## EDUCATION

Associate of Applied Science in Welding Technology Jan / 2016 - Jan / 2018  
Lincoln Tech Portland, OR  
Focused on welding techniques, safety practices, and blueprint reading.

## SKILLS
