

# ISABELLA CLARK

## Teradata Developer

### PROFESSIONAL SUMMARY

Detail-oriented Teradata Developer with extensive experience in data integration and analytics. Skilled in writing complex SQL queries and developing ETL workflows to support business intelligence initiatives. Adept at troubleshooting and optimizing Teradata environments for improved performance. Committed to delivering actionable insights through effective data management and reporting.

### WORK EXPERIENCE

#### Teradata Developer

Seaside Innovations

May / 2019–Ongoing

Santa Monica, CA

1. Configured Teradata Query Manager to automate DBA tasks like collecting statistics and monitoring spool space.
2. Develop and maintain data integration workflows using Teradata.
3. Assist in the migration of legacy systems to Teradata.
4. Implemented Partitioned Primary Indexes to optimize performance beyond expectations.
5. Managed system-related issue detection and resolution during the data loading process.
6. Reviewed and analyzed Data Mapping Sheets provided by clients for accuracy and completeness.
7. Collaborated with stakeholders to refine data requirements and improve ETL workflows.

#### Lead Teradata Developer

Summit Peak Industries

May / 2015–May / 2019

Denver, CO

1. Developed scripts for loading data into base tables in the EDW using Teradata FastLoad, MultiLoad, and BTEQ utilities.
2. Extracted data from various source systems, including Oracle and SQL Server, tailoring solutions to meet project specifications.
3. Tuned complex SQL queries using Teradata Explain to enhance performance and efficiency.
4. Authored BTEQ scripts for pre-populating work tables prior to main load processes.
5. Utilized volatile tables and derived queries to simplify complex SQL operations.
6. Oversaw the data loading from legacy systems and flat files using MultiLoad and FastLoad scripts.

### EDUCATION

#### Master of Science in Computer Science

University of California

May / 2012–May / 2015

Phoenix, AZ

Focused on data management and database systems.
