Class B CDL, Deep Hole Core Drilling, Mud Rotary Drilling,.

PROFESSIONAL EXPERIENCE

Sr. Tool Pusher

ABC Corporation - August 2012 – December 2013

Key Deliverables:

- Complied with all safety procedures an ensuring a safe working environment.
- Ensured efficient maintenance of assigned rig and equipment.
- Held the position of driller/tool pusher on an LF 90D core rig.
- Employed the use of a dozer, loader, and trackhoe.
- Made sure a drilling rig is running right and all people are up on safety and reporting to office.
- Supervision and safety of all rig personnel and third party operations.
- Completed all paperwork related to rig operations.

Tool Pusher

Delta Corporation - 2011 – 2012

Key Deliverables:

- The project was remote location drilling in Southern California.
- Besides coring, we were also responsible for building and reclaiming roads and drill pads.
- All terrain forklifts and marooka were employed to move equipment and supplies.
- Project consisted of 3 rigs and nine, three man crews.
- Was responsible for all crews, as well as core collection and client relations.
- Drilling consisted of 300 to 1500 foot holes, ranging from -45 to -75 degree angles.
- This project was particularly difficult due to the extreme temperature conditions and limited access routes due to BLM regulations for land use.

EDUCATION

- Diploma - (Pine River High school - Tustin, MI)
