

WILLIAM PEREZ

Train Engineer

✉ support@qwikresume.com ☎ (123) 456 7899 📍 Los Angeles 🌐 www.qwikresume.com

PROFESSIONAL SUMMARY

Experienced Train Engineer with 7 years of expertise in the safe and efficient operation of passenger and freight trains. Skilled in conducting thorough inspections, troubleshooting mechanical issues, and ensuring compliance with safety protocols. Proven track record of optimizing train movements and enhancing operational efficiency while prioritizing passenger safety and satisfaction.

WORK EXPERIENCE

Train Engineer 📅 May / 2020-Ongoing
Quantum Solutions LLC 📍 Phoenix, AZ

1. Conducted comprehensive inspections on locomotives pre- and post-operation to ensure safety and functionality.
2. Operated various types of trains, including passenger and freight, adhering to all safety regulations.
3. Identified and addressed obstructions, providing timely warning signals at track crossings.
4. Troubleshot minor mechanical breakdowns to minimize service disruptions.
5. Performed routine maintenance on locomotives as necessary to uphold operational standards.
6. Coordinated with dispatch and control centers for efficient train movements and communications.
7. Ensured compliance with federal and state safety regulations during all operations.

Train Engineer 📅 May / 2018-May / 2020
Lakeside Apparel Co 📍 Chicago, IL

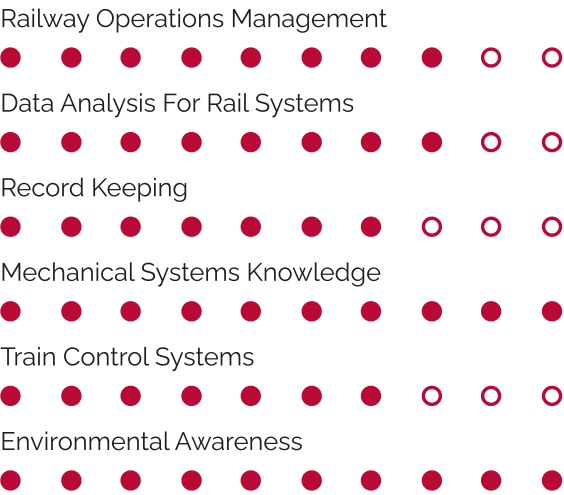

1. Communicated effectively with dispatch via radio to relay crucial operational information.
2. Conducted extensive safety inspections on railcars, engines, and tracks, maintaining high operational standards.
3. Managed crew activities and oversaw loading and unloading operations for shipments.
4. Performed brake system checks and adjustments as needed to ensure safe train operations.
5. Reviewed general track bulletins and job briefings to maintain awareness of operational changes.
6. Monitored train systems for performance issues and implemented corrective actions.

EDUCATION

Associate of Applied Science in Rail Transportation 📅 May / 2016 - May / 2018
City College of New York 📍 Portland, OR

Focused on rail operations, safety protocols, and locomotive engineering principles.
