- Reviewed the expiration date on items before shipping.
- Identified product and its number and place in a warehouse.
- Responsible for truck cooler and freezer units. Pull finished goods from the assembly line and warehouse.
- Pulled work orders Proofread work orders Organized work orders Pulled material from work orders Loaded the trucks Used Hand Jack.
- Load trucks and keep the assembly lines running smoothly.

Truck Loader

ABC Corporation - 2008 - 2013

- Responsibilities I was to ensure that the yard stayed up to code by making sure the drive way was clean, moving all metals and debris, and sweeping.
- Also loaded and unloaded trucks when the metal was transported to a bigger facility.
- When customers who came to deliver metals arrived, I was of assistance on weighing the different metals and placing them in the proper place.
- Also assisted my boss with resale.
- Would post items on the internet using Craigs List or FaceBook and sell them to buyers including antiques in which personal antique buyers would come to pick up.
- Also put together bikes for resale.
- This is Dummy Description data, Replace with job description relevant to your current role.
