PERSONAL STATEMENT

Dedicated, results-oriented Senior Ultrasound Technologist with a solid work ethic and natural leadership capabilities to simultaneously support overall patient care, organizational goals for growth and profitability through effective clinical assessments, diagnostic ultrasound examinations, and technical savvy. Delivers efficient, high-quality reflux and post vein treatment studies and testing for diverse inpatients and outpatients, advancing positive outcomes using ultrasound and related diagnostic procedures.

WORK EXPERIENCE

Senior Ultrasound Technologist

Radiology Regional Center - 2013 – 2019

Responsibilities:

- Check and clarify orders, assess lab values, review patients history and review past medical imaging reports.
- Prepare patient for exam by explaining the procedure, inquiring about medical history and optimizing the patients comfort level.
- Perform ultrasound exams including vascular, breast, abdomen, OB/GYN, small parts and pediatrics (pylorus, cranial, hips, spines, and appendix).
- Prepare a preliminary sonographers report. Contact the ordering doctor when test results are critical.
- Maintain ultrasound equipment and ensured disinfection after use.
- Assist radiologists in performing procedures that require ultrasound guidance such as breast biopsies, thyroid biopsies, sonohysterograms and drainages (paras and thoras).
- Ensure the ultrasound lab is well stocked and properly cleaned daily.

Ultrasound Technologist

ABC Corporation - 2008 – 2013

Responsibilities:

- Performed 10-12 general and vascular ultrasound examinations daily in a busy outpatient facility.
- Presented cases to the radiologist. Exhibited a high degree of customer service with a culturally diverse population.
- Adhered to patient safety and privacy directives.
- Functioned as an integral part of the healthcare team and facilitated the training of new associates.
