💖 Sincerity

📍 Stability

### LANGUAGES

English

Russian

Mandarin

### ACHIEVEMENTS

🌟 Increased video transmission efficiency by 25% through optimized encoding techniques.

🌟 Led a team to successfully implement a new video conferencing system, enhancing user satisfaction by 40%.

### PROFESSIONAL SUMMARY

Versatile Senior Video Engineer with 7 years of comprehensive experience in designing, optimizing, and troubleshooting advanced video systems. Skilled in enhancing production quality and ensuring seamless audiovisual workflows. Passionate about leveraging innovative technology solutions to elevate video experiences and drive operational success across diverse media environments.

### WORK EXPERIENCE

#### Senior Video Engineer

📅 Mar / 2021-Ongoing

Seaside Innovations

📍 Santa Monica, CA

1. Managed the installation, configuration, and troubleshooting of advanced video conferencing systems, ensuring high-quality performance on ISDN and IP networks.
2. Collaborated with vendors to resolve software and hardware issues, facilitating seamless integration of technology solutions.
3. Coordinated with internal teams to maintain up-to-date customer files and ensure smooth operational workflows.
4. Served as the primary contact for hardware and software issues, effectively liaising with vendors and service providers.
5. Conducted training sessions for clients on new video technologies and equipment, enhancing user adoption and proficiency.
6. Administered and maintained a diverse range of video endpoints to ensure optimal performance and reliability.
7. Documented and analyzed reported issues to identify patterns and implement preventive measures, improving overall system reliability.

#### Video Engineer

📅 Mar / 2018-Mar / 2021

Cactus Creek Solutions

📍 Phoenix, AZ

1. Promoted to Master Control Supervisor, overseeing a team of 30 in managing multiple sports networks.
2. Coordinated live broadcasts and recorded programming for in-house networks, ensuring adherence to quality standards.
3. Verified incoming signal quality through fiber optics and satellite downlinks, enhancing broadcast integrity.
4. Led initiatives to upgrade the Cornet VoIP System, incorporating advanced processing technologies for improved performance.
5. Optimized video encoding processes to reduce latency, enhancing viewer experience during live transmissions.
6. Developed and implemented an IL-Client on the TI DM816x-EVM to assess H.264 encoding and decoding latency.

### EDUCATION

#### Bachelor of Science in Video Engineering

📅 Mar / 2015-Mar / 2018

University of California

📍 Santa Monica, CA

Focused on video systems design, production techniques, and signal processing.
