PROFESSIONAL SUMMARY

Innovative Web Architect with 2 years of experience in designing, implementing, and optimizing web applications. Proven ability to collaborate with cross-functional teams to create scalable solutions that enhance user experience. Eager to leverage technical expertise and project management skills to drive web architecture initiatives that align with business goals.

WORK EXPERIENCE

Web Architect

Quantum Solutions LLC

📅 Mar / 2024-Ongoing
📍 Phoenix, AZ

1. Designed and developed web applications using HTML5, CSS3, JavaScript, and PHP to create dynamic user experiences.
2. Architected and implemented scalable solutions using MVC frameworks, ensuring code quality and maintainability.
3. Collaborated with cross-functional teams to gather requirements and deliver web solutions that meet business objectives.
4. Conducted performance tuning and optimization of existing web applications to enhance speed and reliability.
5. Developed and maintained RESTful APIs for seamless integration with third-party services and applications.
6. Utilized version control systems to manage code changes and facilitate team collaboration.
7. Provided technical support and training to end-users, enhancing overall user satisfaction and system adoption.

Web Architect

Crescent Moon Design

📅 Mar / 2023-Mar / 2024
📍 Portland, OR

1. Served as a key architect in the development and deployment of a SharePoint-based intranet, improving internal communications.
2. Collaborated with data analysts to create dashboards and reports, providing actionable insights to stakeholders.
3. Led the migration of web applications to cloud environments, ensuring minimal downtime and enhanced performance.
4. Designed and implemented user-friendly interfaces for various web applications, prioritizing accessibility and usability.
5. Managed a team of developers to streamline project workflows and improve delivery timelines.
6. Conducted regular code reviews to ensure adherence to best practices and coding standards.

EDUCATION

Bachelor of Science in Computer Science

University of California

📅 Mar / 2022-Mar / 2023
📍 Portland, OR

Focused on web development and software engineering principles.
