PERSONAL STATEMENT

Web Designer Developer is responsible for supporting Senior Designers, Designers and Developers with the execution of projects, at all phases of the process from initial concepts to design, implementation and testing final site.

WORK EXPERIENCE

Web Designer Developer/Consultant

M Poulsen Designs And Web Development - January 2016 – 2020

Responsibilities:

- Assisted in developing and maintaining websites, intranet sites, and emailing marketing campaigns.
- Created graphics and code that adhere to GCUs style and brand identity.
- Translated visual prototypes into launch-ready code.
- Tested and troubleshoot pages on multiple browsers and platforms.
- Completed website build-out from Photoshop to functional HTML.
- Contributed to the overall Web Communication Strategy and special projects.
- Able to work in a team and to communicate in a clear way to provide training to staff and faculty.

Web Designer Developer

Delta Corporation - 2011 – 2016

Responsibilities:

- Delivered mobile-ready and cross-browser compatible websites with responsive designs for a restaurant and winery.
- Created rapid prototypes of websites, wireframes, and storyboards within the clients specified timeframes and budgets.
- Rebranded a local cover band and Plumb Cellars with a new website and logo.
- Designed posters, postcards, and invitations for all art gallery openings.
- Developed interactive user interfaces with responsive designs for web based games.
- Created games with attack modes, randomly generated defenses, power levels, digital images, and gif animations.
- Received and managed a State of Idaho grant, helping at-risk youth in conjunction with the Boys and Girls Club.
