

# LIAM ANDERSON

## Websphere Administrator

✉ support@qwikresume.com    ☎ (123) 456 7899    📍 Los Angeles

🌐 www.qwikresume.com

### PROFESSIONAL SUMMARY

Dynamic WebSphere Administrator with 2 years of experience in configuring, deploying, and supporting IBM WebSphere Application Server. Proficient in troubleshooting and optimizing performance across diverse environments. Committed to enhancing system reliability and security through best practices and innovative solutions. Eager to contribute technical expertise to drive operational excellence.

### WORK EXPERIENCE

#### Websphere Administrator

Seaside Innovations

📅 Apr / 2024-Ongoing  
📍 Santa Monica, CA

- Managed configuration and installation of IBM WebSphere Application Server, ensuring optimal performance and reliability.
- Implemented global security measures using LDAP, enhancing user authentication and access control.
- Conducted root cause analysis and provided 24/7 support for WebSphere applications, improving system uptime.
- Optimized application server configurations, resulting in improved resource utilization.
- Developed deployment automation scripts using wsadmin, streamlining the deployment process.
- Enabled tracing components for effective problem determination and performance monitoring.
- Collaborated with development teams to troubleshoot and resolve application issues promptly.

#### WebSphere Administrator

Silver Lake Enterprises

📅 Apr / 2023-Apr / 2024  
📍 Seattle, WA

- Installed and configured IBM WebSphere Application Server on various platforms including AIX and Windows.
- Packaged web and EJB modules using Application Assembly Tool for deployment.
- Enhanced application performance through Tivoli Performance Viewer analysis.
- Resolved application issues by analyzing log files and thread dumps, ensuring smooth operations.
- Implemented workload management strategies to optimize resource distribution.
- Managed backup and recovery of WebSphere configurations, ensuring data integrity and availability.

### EDUCATION

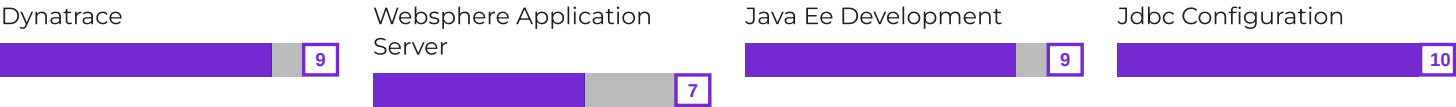

#### Bachelor of Science in Computer Science

State University

📅 Apr / 2022-Apr / 2023  
📍 Phoenix, AZ

Focused on software development and systems administration, with coursework in network security and database management.

### SKILLS

### ACHIEVEMENTS

- 🌟 Successfully reduced application downtime by 20% through proactive monitoring and optimization.
- 🌟 Implemented LDAP authentication, enhancing security for over 500 users.
- 🌟 Streamlined deployment processes, reducing deployment time by 30% using automated scripts.
