ACHIEVEMENTS

Completed welding projects on time with 100% adherence to safety standards.

Assisted in training new apprentices, enhancing team productivity by 15%.

PROFESSIONAL SUMMARY

Dedicated and detail-oriented Welder Apprentice with a strong foundation in welding techniques and safety protocols. Eager to learn and apply skills in MIG, TIG, and stick welding. Committed to producing high-quality work and collaborating effectively with experienced welders. Strong problem-solving abilities and a passion for metal fabrication and repair.

WORK EXPERIENCE

Welder Apprentice
Blue Sky Innovations
Apr / 2024-Ongoing
Chicago, IL

- Operated vehicles to transport personnel and materials safely.
- Supported various crafts as needed to enhance workflow.
- Assisted in layout, positioning, and securing parts, ensuring compliance with specifications using tools like straightedges and calipers.
- Executed welding and soldering of copper pipes with precision.
- Collaborated with Foreman and Journeyman to streamline operations.
- Managed inventory and stocked materials efficiently using hand carts.
- Gained experience in multiple heating processes, including induction and hot foil heating.

Welder Apprentice
Lakeside Apparel Co
Apr / 2023-Apr / 2024
Chicago, IL

- Performed under the supervision of lead journeyman, gaining hands-on experience in stick, MIG, TIG, and flux core welding.
- Supported welders in brazing, thermal cutting, and welding tasks.
- Assisted in moving heavy tools, workpieces, and supplies efficiently.
- Organized pipeline sections for welding, ensuring proper alignment and preparation.
- Executed welding tasks on offshore jackets and decks for oil and gas processing units.
- Demonstrated ability to work safely in high places and confined spaces.

EDUCATION

Associate of Applied Science in Welding Technology
Technical College of the West
Apr / 2022 - Apr / 2023
Santa Monica, CA

Completed coursework in welding processes, safety protocols, and fabrication techniques.
