Work Experience

Welding Supervisor

ABC Corporation - November 1992 - December 2003

- Created weekly work schedules, processed payroll information, managed inventory counts and job cost for each project.
- Introduced new and advanced welding techniques to increase efficiency.
- Managed emergency situations (securing compromised buildings, repair traffic lights, water leak, etc.) while preserving historic building and landmarks.
- Saved city thousands of dollars by developing systematic ways to install and repair traffic lights, cutting project times in half.
- Wore all OSHA required PPE and followed all safety rules & procedures.
- Lead, mentored, and trained members in areas of Safety, Quality, Production, and Kaizen to increase efficiency and reduce production times and costs.
- Calculated and reported negative and positive production hours to account for production flow and delays.

Welding Supervisor

ABC Corporation - 1990 - 1992

- Responsible for the supervision of 35 welders in four different departments, each with a Team Lead.
- Duties included, but were not limited to the review and pre-planning of jobs.
- Coordinating with various departments such as engineering, purchasing, machine shop, stacking, tube bending, electrical, assembly, and paint.
- Pull parts, delegate work and arrange manpower as needed.
- Periodic spot checks for quality and overall dimensional tolerances.
- Keeping an inventory of a wide range of welding consumables and equipment repair parts.
- Maintaining a clean and safe work environment and on-time delivery of a large assortment of gas processing equipment.
