

HENRY WALKER

Junior Wellsite Geologist

✉ support@qwikresume.com ☎ (123) 456 7899 📍 Los Angeles 🌐 www.qwikresume.com

PROFESSIONAL SUMMARY

Enthusiastic Junior Wellsite Geologist with 2 years of practical experience in geological data analysis and sample management. Skilled in real-time data monitoring and interpretation, contributing to safe and efficient drilling operations. Committed to leveraging geological expertise to optimize exploration processes and enhance project outcomes.

WORK EXPERIENCE

Junior Wellsite Geologist

Maple Leaf Consulting

📅 Mar / 2024-Ongoing

📍 Toronto, ON

- Effectively communicated geological information to on-site and remote teams, ensuring clarity in operations.
- Collected and analyzed geological samples, providing insights into well conditions and drilling progress.
- Monitored drilling parameters and fluid properties to support safe and effective drilling operations.
- Performed field tests on lithological samples, adhering to protocols established by senior geologists.
- Supervised night shift personnel, ensuring adherence to safety and operational standards.
- Trained team members on data collection techniques and laboratory practices, maintaining high data quality.
- Managed equipment setup and calibration for geological monitoring, ensuring operational readiness at all times.

Wellsite Geologist

Cactus Creek Solutions

📅 Mar / 2023-Mar / 2024

📍 Phoenix, AZ

- Conducted geosteering for horizontal drilling operations in Bakken and Niobrara formations.
- Prepared and analyzed drilling samples, employing chemical methods for accurate lithological recording.
- Logged various formations, collecting data to confirm downhole lithology and hydrocarbon presence.
- Provided on-site geological services across multiple gas well locations in Pennsylvania.

EDUCATION

Bachelor of Science in Geology

University of Texas

📅 Mar / 2022-Mar / 2023

📍 Santa Monica, CA

Focused on geological processes, sedimentology, and geotechnical analysis.

ACHIEVEMENTS

★ Improved drilling efficiency by 15% through accurate lithological analysis and real-time monitoring.

★ Successfully trained staff on geological sampling procedures, enhancing data integrity.
